This map shows wetlands as identified on the National Wetland Inventory maps and steep slopes of 20% or greater as shown on the USGS 7 1/2 minute topographical map.

The base map was compiled from property tax maps so property lines may not be accurate. Therefore, review of the written land use ordinance and field verification of actual boundaries should be undertaken prior to development.

The depiction of all districts on this map is merely illustrative of their general location. The Code Enforcement Officer shall determine through on-site inspection and measurement the boundaries of the districts.

Where any uncertainty exists as to the exact location of district boundaries, or other field determinations, the Board of Appeals shall be the final authority.
